

THE SAFETY OF EVENT ATTENDEES AND THOSE WORKING IN THE HOMES IS OF UPMOST IMPORTANCE. PLEASE READ ALL GUIDELINES BELOW AS THEY'RE DESIGNED TO HELP REDUCE THE RISKS OF EXPOSURE TO COVID-19 (CORONAVIRUS).

- Do not enter the home if you are potentially sick. Those displaying coronavirus symptoms may not be granted access to the home.
- Seniors and those with compromised immune systems are suggested to not attend this event.
- Maintain 6' social distancing guidelines while waiting to enter the home, talking to those working in the home and while touring the home (including while following directional signs inside). This may require waiting to enter a hallway or a room until the group ahead of you has left the area.
- To maintain social distancing within the home, the number of patrons allowed may be limited based on home size.
- Due to the limited number of people that may be allowed in a home at a time and the natural reactions for children to touch surfaces, we ask that children not attend this event.
- Refrain from touching anything in the home including all surfaces and handles.
- Carry your shoes with you as you tour the home since you'll exit through a different door. Socks are required and you may not be allowed to enter if you don't have any.
- We strongly encourage wearing your own facemask while in the home.
- Use the provided hand sanitizer to minimize the spread of germs.

YOUR INTEREST IN THIS EVENT IS GREATLY APPRECIATED. WE HOPE YOU ENJOY THE TOUR WHILE STILL BEING MINDFUL OF THE CURRENT HEALTH SITUATION WE FIND OURSELVES IN.
